

The track now turns sharply to your right; Loch Kinord is behind you as you head for Old Kinord and Loch Davan. After 200m the track forks, follow the right fork for another 150m to Old Kinord.

As the track sweeps right you will catch glimpses of Loch Davan on your left. Loch Davan is a RAMSAR site, an internationally important wetland area, particularly for the number of wintering wildfowl that visit the loch.

The grassy track now passes through a healthy Birchwood giving ideal habitat conditions for the moth, Kentish Glory. Look out for this day flying species during April and May.

After 500m, take the right fork back into the Birchwood, regain the tarmac road at the Keepers Cottage then turn left back to the parking area.

# LOGIE COLDSTONE

► ► ► ► ► ► ► ► **WALK 01** ►

## Little Ord Walk

**Distance ►** 2.9 km (1.8 miles)

**Time ►** 75 minutes

**Grade ►** easy/moderate

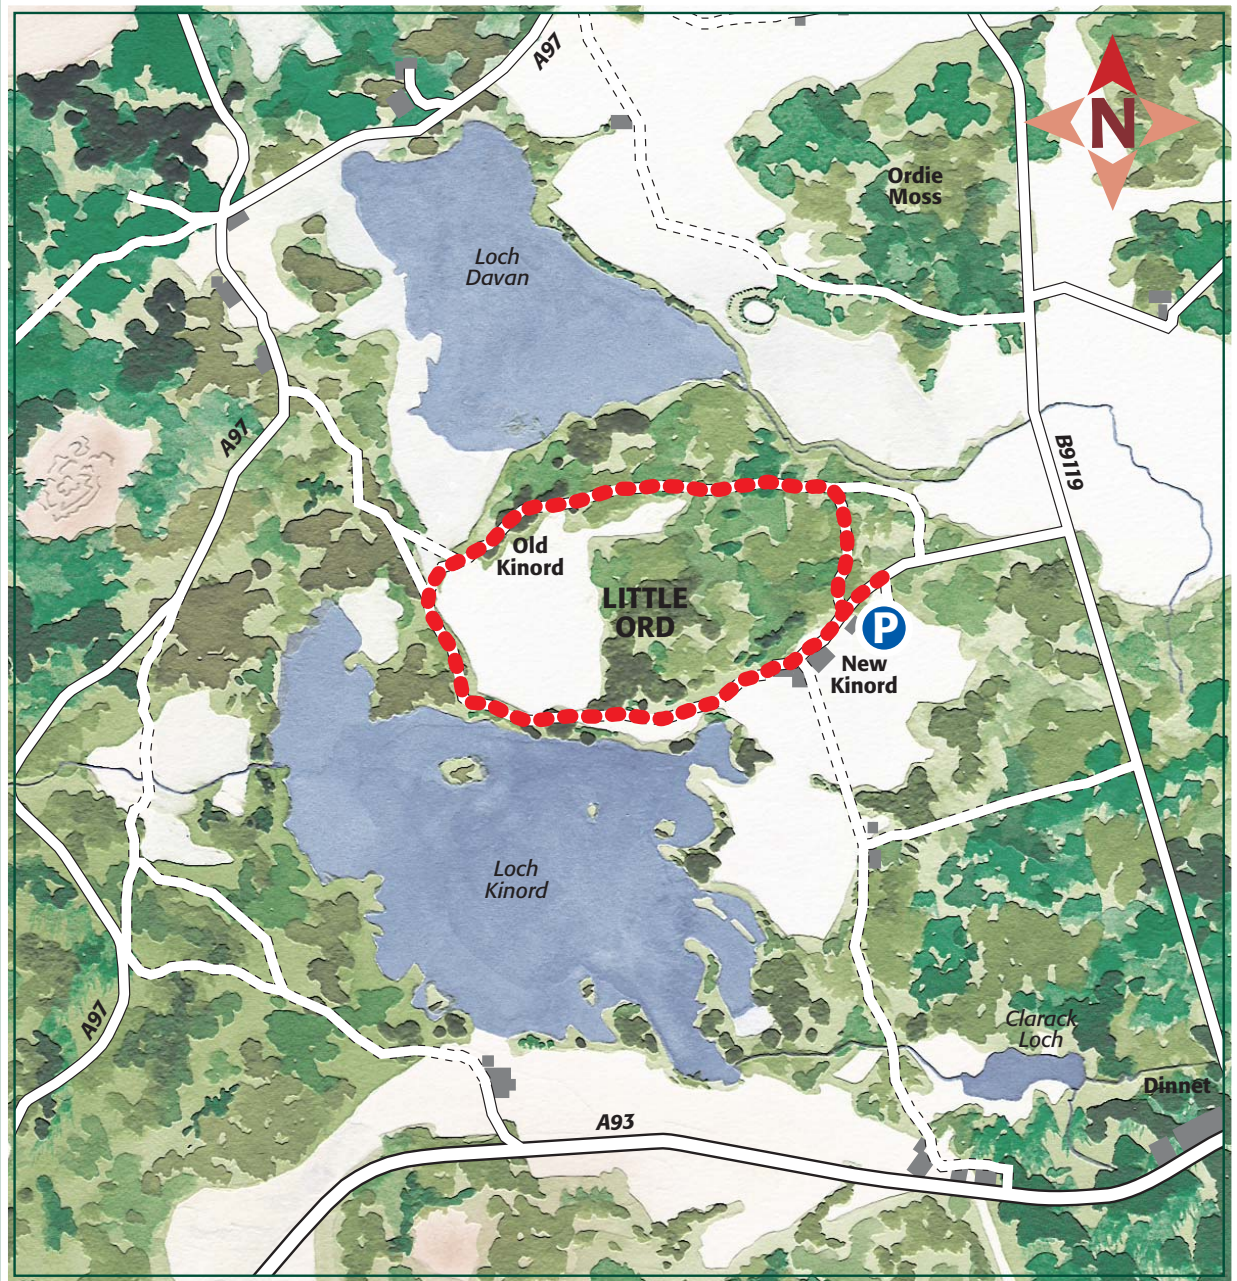

Logie Coldstone

**An attractive walk between the Dinnet Lochs, famous for their wildfowl and historic interest including a crannog, stone cross & hut circles.**

Parking at New Kinord, follow the track to a magnificent Aspen/Ash woodland. You should take a moment, close your eyes and allow the breeze to 'tremble' the Aspen leaves.

After 400m, at a solitary, lonesome Scots Pine, a short detour is possible down to the shoreline of Loch Kinord. Look across to the crannog and imagine the lifestyle of days gone by. Retrace your steps back to the main track. The view ahead now is of Culblean (604m), site of a famous Scots victory on St. Andrews Day 30th November 1335.
